PROFESSIONAL SUMMARY

Self-taught Data Engineering and Analytics professional working daily with Python, SQL and AWS. Experienced in ETL/ELT pipelines, analytics modeling with dbt, BI (Power BI, Metabase) and Generative AI (RAG and agents). Seeking a Data Engineering or AI role where I can drive operational efficiency, cost reduction and data-driven decisions.

EXPERIENCE

- Data Analyst** Jan. 2026 – Present
Singlesoftware BRAZIL
 - Build cloud-native serverless microservices and scalable Generative AI/ML architectures on AWS (S3, SageMaker, FastAPI).
 - Maintain and evolve RAG pipelines orchestrated with AWS Lambda and Step Functions.
 - Model raw data into analytics layers with dbt and manage Metabase dashboards for management support.
- Financial Analyst** Oct. 2024 – Jan. 2026
Singlesoftware BRAZIL
 - Built strategic Power BI dashboards to support casino game positioning and market strategy optimization.
 - Developed AI agents for querying the sales team's internal documents, speeding up decision-making.
 - Created Python data pipelines to automate validation, cross-checking and reconciliation of data between vendors and internal systems, ensuring the integrity of financial information.
- Junior Software QA Analyst** Apr. 2024 – Oct. 2024
Singlesoftware BRAZIL
 - Validated and tested deliverables from the development team.
 - Built Power BI reports on user behavior and financial flows (withdrawals and deposits) for betting platforms.
 - Developed ETL processes with Microsoft Fabric and managed sports and casino content across CMS platforms.
- Loss Prevention, Inventory and Administrative Roles** Feb. 2021 – Apr. 2024
Redepharma Paraíba, BRAZIL
 - Progressed from Young Apprentice to Loss Prevention Assistant, serving as interim team lead.
 - Built Excel and Power BI reports and dashboards for the department and each distribution center area, identifying bottlenecks and reducing operating costs.
 - Managed reverse logistics and inventory control, negotiating with suppliers, distributors and the finance and purchasing teams to cut losses from damaged and expired products.

EDUCATION

- Federal University of Campina Grande (UFCG)** Paraíba, BRAZIL
Geography (Incomplete)

CERTIFICATIONS AND COURSES

- Udemy (Ed Donner):** The Complete Agentic AI Engineering Course (2025); AI in Production: Gen AI and Agentic AI at Scale
- LangChain Academy:** LangGraph Essentials (Python); Deep Agents with LangGraph
- Other:** Databricks Fundamentals Accreditation; Jornada de Dados (Data Engineering)

TECHNICAL SKILLS

- Languages and Tools:** Python, SQL, Git, Docker
- Data and BI:** dbt, Airflow, Microsoft Fabric, Databricks, Power BI, Metabase
- Cloud and AI:** AWS (S3, Lambda, Step Functions, SageMaker), FastAPI, LangGraph, RAG
- Spoken Languages:** Portuguese (native), English (intermediate)
